- Attacks odours at their source
- Removes unhealthy microbes from the air
- Makes every room smell freshly cleaned
- Maintains sanitized surfaces
- Stops mould and fungi growth
- Clears smelly compounds in the air 24/7

› PROTECT YOUR AIR QUALITY

Maintaining a clean and healthy internal environment can be a constant challenge. Unpleasant odours or stale air may be a source of embarrassment but the biggest health risks are often overlooked.

Odours can be a sign of high bacteria or VOC levels. The risk of illness passing between individuals is present in any shared space, this is elevated by the number of people or lack of fresh air.

AIRsteril technology removes odours, ensuring fresh clean air and constantly reduces unhealthy microbes and compounds.

The ProtectAir range is the most advanced and flexible AIRsteril product available. As a free standing unit, the ProtectAir can be easily placed centrally (on a desk/table/counter or shelf) and instantly get to work to clear odours and protect you from microorganisms and contaminants.

Simple LCD touch panel for all controls. Easily change the quantity of air processed through the internal cleaning chamber with 6 fan speed options ranging from silent operation to 4100rpm. Timer options allow continuous operation or auto switch off after 2, 4, 8, 12, 16 or 24hrs.

› ODOUR AND INFECTION CONTROL IN
